

SMART CYLINDER Pricing

Notes:

1. Other cylinder options and sizes available upon request; i.e. Low pressure, Wetback, Copper, Enamel, Stainless steel
2. Product Codes with N suffix can be upgrade to SU, SR for extra charge - refer tables below
3. Product codes already with SU suffix have no extra fee attached.
4. Mains Pressure cylinders can also be used on low pressure systems

Item	Product Code	Description	Warranty	Cylinder Dimensions	Touch Display	Single Element	Dual Element	Indoor	Outdoor	Price Excl GST
180L Enamel										
1	C2TD-180ME1EI-N	180L - Enamel - Single 3kW Element - INDOOR - Mains Pressure - Solar ready cylinder - LCD Touch Screen	5yrs Cylinder, 1yr Parts, 3yrs Controller	515 D x 1530 H	√	√	X	√	X	\$1,565
2	C2TD2-180ME1EI-N	180L - Enamel - Single 3kW Element - INDOOR - Mains Pressure - LCD Touch Screen - (Note; NOT Solar Ready)	5yrs Cylinder, 1yr Parts, 3yrs Controller	488 D x 1660 H	√	√	X	√	X	\$1,595
3	C2TD-180ME2EI-N	180L- Stainless Steel, Dual Element, INDOOR, Mains Pressure, Solar Ready cylinder LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	590 D x 1190 H	√	√	X	√	X	\$1,780
180L Stainless										
4	C2TD-180MS1EI-N	180L- Stainless Steel - Single Element, INDOOR - Mains Pressure, Solar ready cylinder LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	550 D x 1296 H	√	√	X	√	X	\$1,765
5	C4TD-180MS1EI-N	180L- Stainless Steel , Single Element, INDOOR, Mains Pressure, LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	488 D x 1770 H	√	√	X	√	X	\$1,795
6	C4TD-180MS2EI-N	180L - Stainless Steel, DUAL Elements, INDOOR, Mains Pressure LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	488 D x 1770 H	√	X	√	√	X	\$1,925
250L Stainless										
7	C2TD-250MS2EI-N	250L - Stainless Steel, DUAL Element, INDOOR, Mains Pressure, Solar ready cylinder, LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	550 D x 1740 H	√	X	√	√	X	\$1,995
8	C2TD-250MS2EI-WB	250L - Stainless steel, DUAL element, INDOOR, Mains pressure, Solar Ready cylinder, WETBACK COIL LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	550 D x 1740 H	√	X	√	√	X	\$2,325
300L & 320L Stainless										
9	C3TD-300MS2EI-N	300L - Stainless Steel, DUAL element, INDOOR, Mains Pressure, Solar ready cylinder, LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	550 D x 2045 H	√	X	√	√	X	\$2,090
10	C1TD-320MS2EO-SU LIMITED STOCK	320L - Stainless Steel, DUAL element, Indoor or OUTDOOR, Mains pressure, Solar ready cylinder, LCD Touch Display,	10yrs Cylinder, 1yr Parts, 3yrs Controller	600 D x 1910 H	√	X	√	X	√	\$1,995
11	C2TD-300MS2EI-WB	300L - Stainless Steel, DUAL Element, INDOOR Mains Pressure, Solar ready Cylinder, WETBACK COIL LCD Touch Screen	10yrs Cylinder, 1yr Parts, 3yrs Controller	550 D x 2045 H	√	X	√	√	X	\$2,615

Suffix at end of above Product Code :- N = No special configuration; SR = Solar Thermal Ready; SU = Solar Thermal Upgradeable; WB = Wetback Coil Cylinder; NR = Night Rate

SMART CYLINDER Pricing

Solar Thermal Options		
N	These Cylinders are not configured for solar hot water - Smart Cylinder operation only	
-SU	Solar Ugradible Cylinder- This option can be upgraded for solar hot water installation using the SU-Kit	\$50 +GST
-SR	Solar Ready Cylinder - This cylinder is fully kitted out and ready for install into solar hor water installation	\$100 +GST
SU-Kit	Solar Upgrade Kit - includes, 2m mains plug, 0.35m pump socket, 20m roof sensor, etc	\$70 +GST

Solar PV Diverter Options		
Suffix	Description	Extra Cost
PVTE	Solar PV Ready Cylinder - This Cylinder is designed to work with a PV Diverter - This dual element cylinder with the PV feeding the top element and the smart controll opperating the bottom element only.	\$50 +GST
PVBE	Solar PV Ready Cylinder - This Cylinder is designed to work with th PV Diverter - This dual element cylinder with the PV feeding the bottom element and the smart controll operating the top element only.	\$50 +GST

Other Options		
Mains Valve Kit	Mains Pressure Valve Kit - Normally \$395 + GST	\$275.00 +GST

Solar PV Settings Options		
Suffix	Description	
PVSET	Designed to work for all types of smart cylinders - These Smart Cylinders have the profiles set up so the cylinder fills up to full during sunshine hours thus using up excess PV generation before feeding back into the grid occurs. (This system does not require a diverter)	No extra Cost
